SUMMARY

Resourceful Software Engineering (Honours) graduate with a strong foundation in full-stack development, robotics, and cybersecurity. Possesses practical experience in Python, C#, TypeScript, React, Node.js, and Docker through academic projects and a BibVault internship. Proven ability to build and innovate, evidenced by winning a national robotics competition. Eager to leverage a diverse technical skill set and a passion for problem-solving to contribute to innovative projects.

WORK EXPERIENCE

03/2026 – 06/2026	Full Stack Developer — Remote Internship BibVault	Remote, Australia
	Undertook a full stack development internship during the final trimester of an honours degree.	
10/2024 – 01/2026	Console Operator (Casual, Night Shifts) 7-Eleven	Lysterfield, Australia
	Managed store operations during night shifts, balancing responsibilities alongside academic commitments.	
2019 – 2022	Robotics and IoT Project Builder Kidobotics	Ambala Cantt, India
	Engineered and delivered ethical hacking engagements for a diverse range of clients over multiple years.	
06/2018 – 07/2018	Robotics Workshop Helper Kidobotics	Ambala Cantt, India
	- Constructed "Victory," a sophisticated bomb-disposal and surveillance robot. - Secured 1st prize at the 3rd National Level Junior Robotic Challenge held in Bangalore.	

EDUCATION

07/2024 – 08/2026	Deakin University	Melbourne, Australia
	Bachelor of Software Engineering (Honours), Software Engineering	
	- Achieved First Class Honours. - Completed a Minor in Cyber Security. - Undertook Honours thesis focused on GPS spoofing detection in mobile robots, utilising the PX4 SITL simulation environment. - Relevant coursework included: programming & OOP, data science, embedded & IoT systems, robotics, web & full-stack development, cloud & DevOps, cybersecurity, research & thesis, and project management.	

B.E Software Engineer, Computer Science

- Earned academic credits that were transferred towards Deakin University studies.

SKILLS

Python

C#

TypeScript

JavaScript

C/C++

HTML

CSS

Bash

LaTeX

React

Node.js

Express

.NET

Astro

PX4

Docker

Linux

Git & GitHub

CI/CD

Ollama

Robotics

Autonomous Systems

Machine Learning

Cybersecurity

Embedded & IoT

Full-Stack Web

SQL & NoSQL databases
